

Types of Abilities

Intuitive: The ability to just ‘know’ things; specializing in telling you what will happen if you would chose one road or another in your life.

Mediumship: Communicating with people who have passed away. Only those who want will join in. Sometimes you will find a spirit who has waited to get a message to you!

Past Life: Getting images and other impressions of life styles, jobs, home life and more from previous lives.

Psychometry: The ability to get images and feelings when touching an object.

Spirit Guide: Communicating with your guide and getting information on what they are trying to get to you, as well as teaching you how in the future.

Stone Readings: Stone readings are selecting a certain amount of stones and placing them in a pattern you decide, and then interpreting them. I also can get information off of any of your stones you want to bring.

Availability

Readings are available by appointment only. They can be done in person, over the phone, or on the computer using Skype.

In Person: Readings are done at my home, in a relaxed setting.

Phone and Skype: Phone and Skype readings can be done very easy, anywhere in the world.

Parties: It works best to set up in a small room and do single person mini readings, which are kept light for the party atmosphere.

Cost

Readings are \$45 for a reading, which can last from 30-60 minutes depending on the person and questions.

Parties are \$60 per hour, up to 3 hours.

How a Reading Works

The Four Parts of a Reading

1) During the session we will do a card reading first; this is not a tarot card reading. I have picture cards that I use to get a better idea of what is going on in your life, and through these cards I can generally see the larger issues in your life even if you came in for other reasons.

2) Next we cover the issues you have brought with you; my specialty is being able to see situations and telling you what will happen if you choose different paths. This can help you make an educated choice knowing what is coming.

3) Then we go through all your questions, the list you bring and any that come up during the rest of the reading. We go until you are out of questions.

4) The last part of the session is working with your spirit guide and helping you learn how to communicate with them on your own so you can do this when you need to!

About Owl Lady

Everyone has psychic ability. Ask around; there's always a story of knowing when the phone is about to ring, or a dream that came true. It's just a matter of the strength of the ability.

I have a friend who is a famous pianist. Sitting in front of the piano and playing would be a dream come true; but my playing is juvenile at best. That just isn't my gift or talent, but it is hers; just like the psychic ability is mine.

As a child it was a surprise to me that everyone didn't have it. It was also a tremendous burden; knowing when things were going to happen, I learned to keep it to myself when my family made it clear they were not comfortable with me sharing information.

As an adult it got stronger as it does in many women approaching their 30's and after having children. I was having visions quite often but ignored them as much as possible, until I wasn't able to do that anymore!

My abilities were growing so much that they became jumbled, and I was getting too much coming in at once; like having the TV, radio and blender on.

When I got home from the grocery store quite often I would have some groceries that I didn't even remember buying; I was picking up on other people's lists!

Eventually I found people to help me learn how to control the amount of input coming in, and how to harness the different abilities and separate them out. I also learned how to work with people and how to help them with my gift.

Raising children with this has been very strange; letting them go and get into trouble when you know something is going to happen and having two of my three girls with the abilities as well.

Being in public is difficult, even blocking info only gets you so far. Going to crowded areas is so hard; movies, malls and shopping; knowing about things and not being able to say anything... It gets exhausting!

Also, at night people who are on the other side like to try to come through when I am tired. Messages or actual physical happenings can be common at bedtime, and the cat goes crazy. We rarely get bored around here!
